

Dissimilar Aircraft Operations On The Increase. Airport Mixed Use, learn more, Fly Safe

This enlightening seminar will include brief operational presentations by representatives of several varied aircraft types using our airspace. Representatives of the following types have been invited to speak; Experimental aircraft, Ultra-light and Powered Parachutes, Business Jets, Skydivers, and Balloon operators. These speakers will be followed by a Moderated Discussion, including a panel of 3 CFI's. The Audience will have an opportunity to ask questions of the panel in this open forum.

Directions: From Hwy 65, exit Nelson Lane northbound. Continue straight past (across) Nicolaus Rd. Airport entrance on left (Flightline Dr.). Follow "Safety" signs to 1420 Flightline Drive.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants.
